Re-Entry Clinton, Eaton, Ingham Priority Treatment (RECEIPT)

RECEIPT is a Jail Re-Entry program that provides Case Management services to enhance an individual's success in recovery. RECEIPT Case Management services can begin during incarceration and continue post-release based on need. Incarceration is not a requirement to be eligible for services. RECEIPT assists clients in building the recovery foundation needed in the community. RECEIPT services are for all individuals with Substance Use Disorder (SUD), with a focus on individuals who meet the State of Michigan's SUD Priority Populations guidelines.

RECEIPT works to create a co-occurring capable system that is welcoming, person-centered, recovery oriented, culturally competent and trauma informed. Community Mental Health Authority, Clinton, Eaton, Ingham (CMHA-CEI) Integrated Treatment & Recovery Services (ITRS) programs encourage, support & guide individuals to explore all methods of treatment identified as beneficial toward their wellness, including Medication Assisted Treatment (MAT).

Program Eligibility Criteria

All individuals with Substance Use Disorder are eligible. The program prioritizes those who meet the State's Priority Population guidelines:

1. Pregnant with use of injecting drugs.
2. Pregnant with substance use disorder.
3. Individuals with use of injecting drugs.
4. Parents whose children have been removed from the home or are in danger of being removed from the home due to the parents' substance use disorder.

Individuals must:

- Be enrolled in other treatment services (not residential) or stepping down from services upon jail release.
- Have a documented need in at least one domain involving community living skills.
- Have a demonstrated history of recovery failure.
- Have an SUD involving a primary drug of choice that will require longer term involvement in treatment services to support recovery.
- Have an SUD with chronicity and severity such that ongoing support is needed to increase probability of recovery.

"Forming a new way of living."

Treatment

Typical Case Management Services (CMS) may include:

- Needs Assessment
- Link to community resources, including recovery supports
- Address with the individual detection and prevention of communicable diseases
- Advocate for the individual with other agencies and supports
- Assist in developing social supports
- Assist in obtaining basic needs
- Assist in the development of Community Living Skills
- Assist in securing necessary physical and mental health care
- Referral and coordination to other SUD levels of care
- Assist the individual in securing stable and affordable housing
- Assist the individual in securing stable and affordable transportation
- Coordinate employment training and assist in securing employment
- Link the individual to financial assistance services
- Address any possible educational and vocational needs

The final destination is important, not how you get there.
